STAR WARS SECRET CODE DECODER

1. Cut out both parts of the Star Wars Secret Code Decoder.
2. Make a small hole in the center of each circle.
3. Insert a small brass paper fastener through the center of both circles (the circle with the Star Wars figures goes on top.) Bend the metal tabs on the back of the paper fastener down to secure the circles.
4. Turn the top circle until you find the number you are looking for and see what letter is above it. Fill in the blank with that letter. Repeat for each number and solve the secret code!
