

Add Your PIN to Hoopla

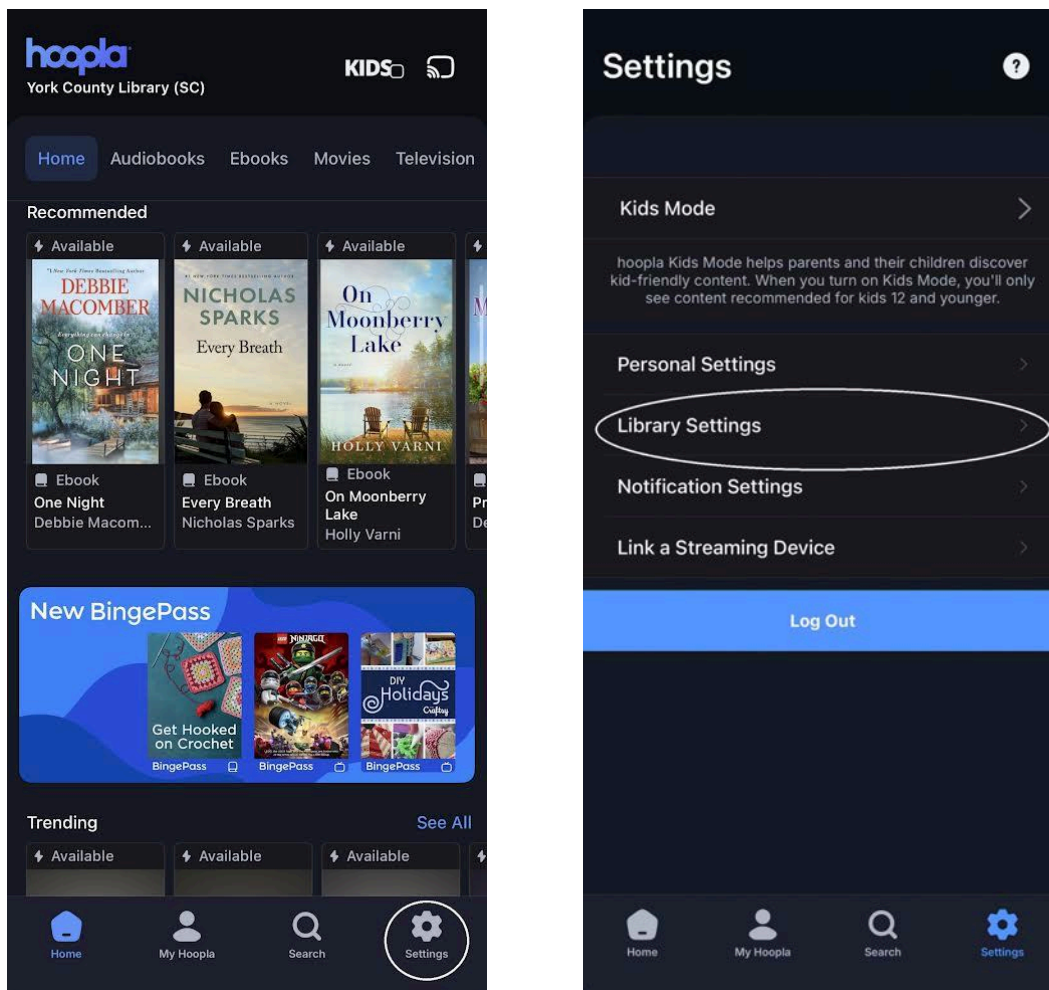

If you already have a Hoopla account, follow these steps to add your library PIN. The screens may look slightly different depending on your device.

- By default, your PIN is the last 4 digits of the phone number on your library account.
- To reset your PIN, visit yclibrary.org, select **My Account**, and choose "Forgot my Password."

Using the Hoopla App

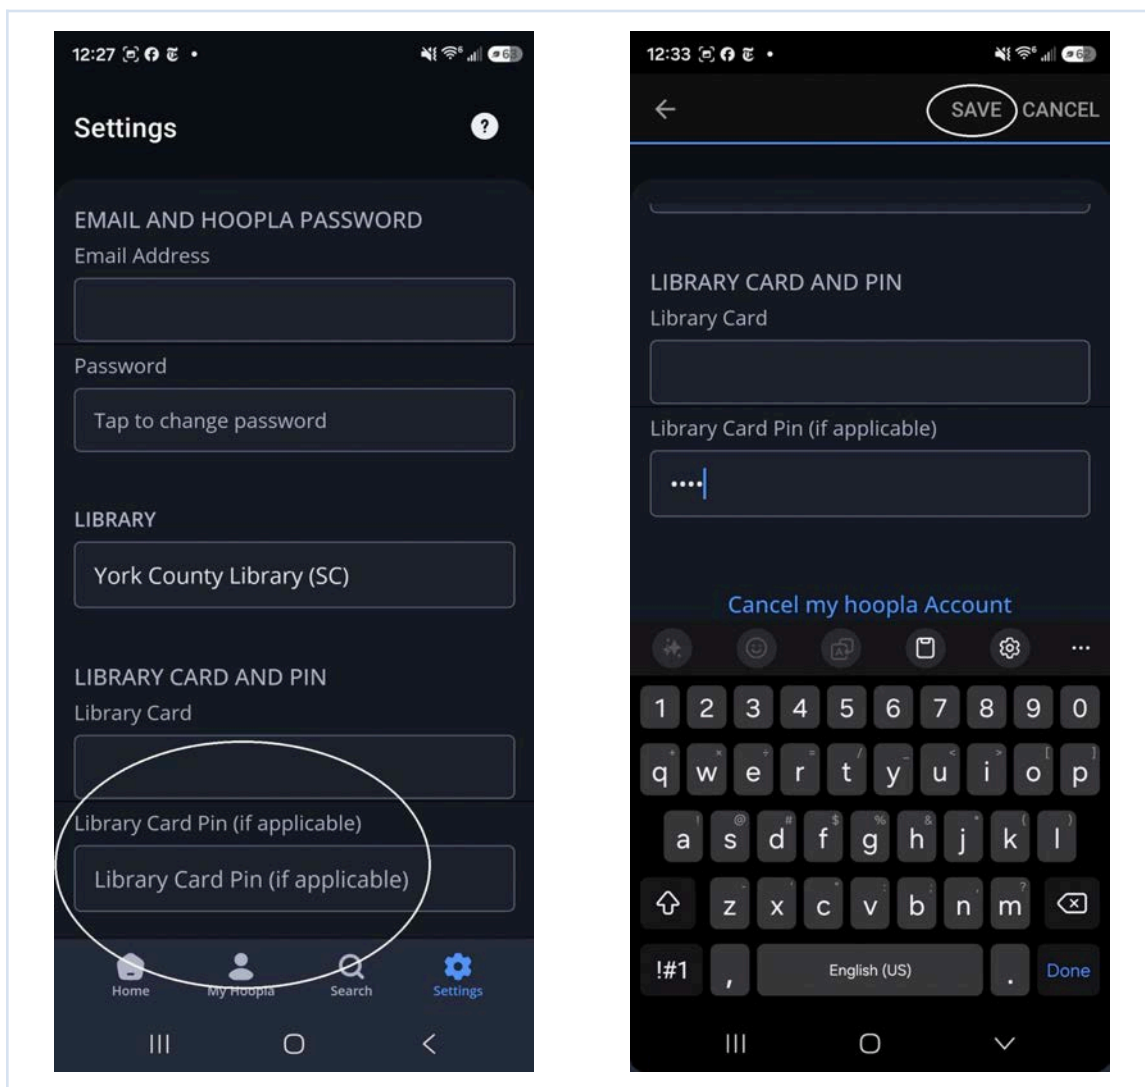

Step 1: Open Settings

Open the Hoopla app and select **Settings** (⚙️ gear icon), then choose **Library Settings**.

Step 2: Enter your PIN and Save

Scroll down to the **Library Card and PIN** section, type your PIN in the **Library Card PIN** field, and select **Save** in the top-right corner.

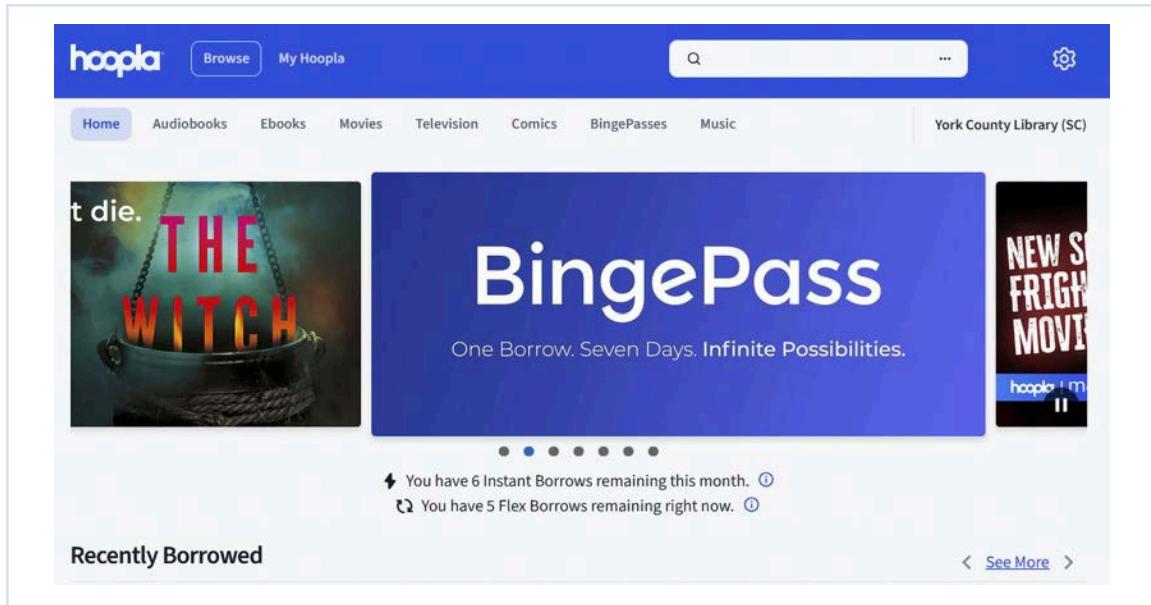

Still having trouble? After saving your PIN, you may need to completely close the Hoopla app and reopen it for the changes to take effect. If you're still unable to log in or borrow titles, contact the library for help.

Using the Hoopla Website

Step 1: Open Settings

Sign in to your account at hoopladigital.com and click on **Settings** (⚙ gear icon) at the top-right corner.

Step 2: Enter Your Library PIN

Select the **Library** tab, enter your PIN in the **Library PIN** field, and click **Save**.
