Director's Reports

Budget

Jason Hyatt cautioned that this past year's budget report is not final. A few invoices overlap with the current year. Funds from the County are at the same level as last year until fall. There is a possible increase at that time.

Statistics

Virtual Library circulations are greatly increased.

The Clover School District has inquired about obtaining YCL cards for all students. We are looking into the process of managing this now. Because the school year will look so different, the Public Library is anxious to meet the needs of York County students. If the process works out well for Clover, it could be a model for other county school districts.

Curbside Pickup has been so well received that we are looking into continuing it as a service even after the library buildings are opened up to patrons.

There has been some negative feedback from patrons who do not understand that, though no fines will be collected during this time, the system automatically issues overdue notices until the returned items have gone through quarantine and been checked in. This is noted on the website, but an explanatory note is being issued with each check-out in an effort to reach all active patrons with the information.
