### Did you know?

**Reading** together with a child is the single most effective way to help a child get ready to read for school success.

**Talking** to and responding with children help them learn new words, remember stories, and be part of a conversation.

**Singing** and rhyming is a natural way to learn language, along with clapping to the rhythm of a song.

**Writing** goes hand-in-hand with reading by learning letters and sounds, even if through scribbling and drawing.

**Playing** is one of the primary ways children learn language, by making up stories and learning about the world through play.
